When you have to be right

ELM Solutions

LegalVIEW® Dashboards

Key Benefits

- Visualize and track outside counsel performance, including matter costs, durations, staffing allocations, and rates
- Analyze and track departmental performance against budgets, goals, and strategies
- Gain insights faster and improve efficiency of decision making
- Facilitate transparent and consistent communication with stakeholders
- Enjoy secure, efficient, and easy deployment

LegalVIEW Dashboards provides business intelligence and at-a-glance views of over 60 key performance indicators (KPIs) related to legal spend and legal operations management. Using the solution, clients easily visualize and track performance data, the solution provides a simple, consolidated, and cohesive view of business information, which enables smarter, faster, and better-informed decisions that lead to exceptional departmental performance. LegalVIEW Dashboards can be used hand-in-hand with Passport® or TyMetrix® 360° applications, or with any other vendors' legal matter and spend management or claims defence solutions.

Visualize, track, and gain clear insight into legal spend and department operations.

- Easily understand performance against business goals and objectives with at-a-glance views of KPIs and business metrics
- Drill-down into interactive KPI dashboards to perform granular analysis of matters, operations, legal spend, and more, and enable better-informed business decisions
- Analyze and interpret data quickly using data visualisations on multiple dimensions of each KPI, as well as a variety of graphical formats, such as bar, column, and line charts and graphs
- Benchmark legal spend and legal operations performance against industry peers using data from LegalVIEW to identify where the legal or claims department excels, as well as opportunities for improvement

Gain clear insight into legal pend and department operations.

LegalVIEW® Dashboards

Efficiently share relevant information and communicate business performance with ease.

- Easily export data and KPIs into other formats, documents, and presentations to effectively communicate key metrics to executives and business partners
- Leverage the solution's support for custom-built KPIs to track and measure metrics and performance specific to a company's unique strategic objectives and quickly view and analyse the factors that most impact its business
- Ensure that users always have the most current and relevant data at hand using the solution's scheduling feature – dashboards can update on a set frequency and email reminders are sent to notify users when a dashboard is available for review

Enjoy secure, efficient, and easy deployment.

- Get started quickly – as a SaaS-based offering, the Dashboards solution requires no on-site installation or technical support
- Access the most current metrics and information with near-real-time data updates
- Leverage the solution's role-based security to ensure that data is only accessible to authorised users and that staff members have access to the information that is most relevant to their role
